

## ANNUAL REPORT

2018

# A Word from Our President

---

## Inputs / Outputs

### Deadlock

I think, this term defines the situation of the Near and Middle East countries. From Iraq to Syria through Lebanon, Jordan and Palestine, societies are burdened and suffer from the weight of the competing interests of the present controlling forces. Whether they are local, regional or international, their inability to resolve crises generates great uncertainty; millions of people are displaced, refuged or simply impoverished.

### Tenacity

Refugees, displaced, poor, vulnerable, marginal ... these are not just definitions, figures, or a number. Nor are they 'beneficiaries' and nor are we their 'benefactors'. They are women, men, and children, humiliated, abused, impoverished but never resigned. They are people who have a face, a name, dreams, and an extraordinary tenacity that supports them in confronting the worst nightmares. They aspire for a tomorrow whereby they may live in peace and well-being.

### Respect

They have the right to be respected.

They have the right to be heard.

They have the right to define their needs and priorities.

They have the right of our help, minimal in comparison to their loss.

### Dignity

They fight for their right to a dignified life.

Let us not give up on them,

let us be worthy of their expectation.

### Carry On

Beyond any hope of immediate change, we must continue.

Continue to believe that wars and injustice are not unavoidable.

Let us not give up on solidarity.

Father Albert Abi Azar, President
